

Condolence Letter

We are deeply saddened by the passing of Prof. Umberto Solimene, who always honored us with his friendship. His passing is a tremendous loss to all who knew him.

He was a special person, always willing to lend his support and a brilliant mind who loved to innovate and support new initiatives.

To him, who first believed in us, we owe the international visibility of our live streaming technology with real-time translation.

Our deepest sympathies and warmest condolences go out to his family during this difficult time.

Luigi Cardone

Managing Director
